PREFACE

THIS CATALOG contains a list of the titles of Braille books made available through the facilities of the Library of Congress between December 1948 and December 1951 by the authority of the act of Congress approved March 3, 1931 (2 U. S. Code 135a), as amended, “. . . to provide books . . . for the use of the adult blind.”

Braille volumes are provided without charge to the adult blind residents of the United States, including the several States, Territories, insular possessions, and the District of Columbia. They may be borrowed through 26 distributing libraries serving as regional centers. A list of these libraries, arranged according to the State and areas they serve, is set forth on the pages immediately following. Braille books not exceeding 15 pounds in weight may be sent in the mails free of postage by public institutions for the blind or by public libraries when being lent to blind readers or when being returned by such readers.

This catalog does not represent the entire collection of any depository library, including the Library of Congress. Moon type and hand-copied Braille books and certain Braille periodicals are omitted.

Supplements to this catalog will be published by the Library of Congress from time to time. For monthly listings of current Braille publications, readers should consult the *Braille Book Review*, which may be obtained without cost either in Braille or ink-print from the American Foundation for the Blind, 15 West 16th Street, New York 11, New York.
